Students who successfully complete Theatre 1 are invited to continue to Theatre 2. Theatre 2 explores theatre history, including historical genres of acting, significant playwrights, and theatre from a variety of cultures.

ADVANCED THEATRE

Advanced Theatre focuses on performance theory and characterization, as well as theatrical direction and production. Advanced Theatre students will put on at least one main stage performance.

Within Advanced Theatre, students may also pursue advance technical theatre, stage management, or costume design. These students will assist with the technical elements and take on significant production roles of class production.

TECHNICAL THEATRE

Technical Theatre class covers the basics of stagecraft and design, costuming, as well as light and sound design. Technical Theatre students actively participate in the construction of the fall play or spring musical set, lights, and props. There are also many opportunities to get involved with technical theatre throughout the school year and outside of class.
